Additional Details

As a front-end developer, I possess a deep understanding of user experience principles and have a keen eye for detail, allowing me to create games that are both aesthetically pleasing and enjoyable to play. I work closely with designers, game producers, and other developers to ensure that the games I develop meet the highest standards of quality and deliver an exceptional player experience.

In my role as a front-end developer for slot games, I play a critical role in shaping the player's overall gaming experience and helping to drive the success of the games I develop. I am confident that my technical expertise, attention to detail, and passion for creating engaging gaming experiences make me an ideal candidate for any team seeking a skilled front-end developer.

Desired Salary: 3000 EUR

Desired job: Software Developer w/ JavaScript.
Front-End Developer
